EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Barry Kelmachter on June 14, 2004.

The application has been amended as follows:

Claim 1 (amended). A process for chemically milling a metal part comprising the steps of:

preparing a milling solution containing nitric acid, hydrofluoric acid, dissolved titanium,
a wetting agent, and water;

said preparing step comprising providing said nitric acid and said hydrofluoric acid in a ratio of said nitric acid to said hydrofluoric acid in the range of from 1:1 to 2:1; thereafter, maintaining said milling solution at a temperature in the range of from 110 to 130°F; and immersing said metal part into said milling solution for a time sufficient to mill a desired depth on at least one surface of said part.

Cancel claim 3.

Claim 4 (amended). A process according to claim [[3]] 1, wherein the ratio of said nitric acid to hydrofluoric acid is in the range of from 1:1 to 1.5:1.

Application/Control Number: 09/967,098

Art Unit: 1765

Claim 29 (amended). A process for chemically milling a <u>metal</u> part comprising the steps of:

preparing a milling solution containing nitric acid, hydrofluoric acid, dissolved titanium,
a wetting agent, and water;

said preparing step comprising providing said nitric acid and said hydrofluoric acid in a ratio of said nitric acid to said hydrofluoric acid in the range of from 1:1 to 2:1;

said preparing step further comprising adding said surfactant in an amount such that said milling solution has a surface tension of from 30 dynes/cm² to 36 dynes/cm²; thereafter, maintaining said milling solution at a temperature in the range of from 110 to 130°F; and immersing said metal part into said milling solution for a time sufficient to mill a desired depth on at least one surface of said part.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anita K Alanko whose telephone number is 571-272-1458. The examiner can normally be reached on Mon, Tues & Fri: 8:30 am-5 pm; Wed&Thurs:10 am-2 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nadine Norton can be reached on 571-272-1465. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
